

Assessment 6 Bug Test

To do list:

Test case: X's

Setup: Click a square to make a x.

Check to see if every square can be x'd.

Test case: O's

Setup: Check if o's are in different squares than the x's.

Check that o'd squares can not be changed to x's.

Check all o's are the same case.

Test case: Winner Announcement

Setup: Check to make sure the announcement announces the right winner.

Passed tests:

Test case: X's

Aug. 27th

macOS

Bugs:

Test case: O's

O's can be x'd over.

O on middle far left square is lowercase and the rest are uppercase.

Test case: Winner Announcement

Announcement announces the winner lost instead of wins.
